

Dear Sir / Madam,

As an innovative IT Application support specialist with more than 9 years of combined experience in the technology and software's services, I have led and planned IT ERP software implementation, software product evaluation, software product deployments, and strategic operation. I offer extensive experience leading start-up projects and delivering high quality project delivery on time and on budget.

Influencing corporate profitability, productivity, and competitive performance through skillful alignment of technical resources with enterprise mission is one of the many ways I served an instrumental role in the success of past employers.

My latest experience mainly consists of management of the corporate IT delivery program, which is for refreshing the current IT software's requirements and meeting all the business needs.

For a more detailed presentation of my skills and background, please review my enclosed resume and feel free to contact me at your convenience.

You will find me an enthusiastic, friendly and reliable person, I'm hard working and I have a certain creative flair, which I hope I can put to good use to your company.

I know recruiting can be a long and stressful procedure so I would like to thank you for taking the time to consider my application.

With Thanks & regards,

Afzal Khan
